

## Gewürzkiste

### **What you'll need**

- A crate (plastic has also worked well in rainy camps)
- spices

### **What you need to do**

- buy spices before camp
- sort them into the box and give them to the camp kitchen
- then close the individual tins and jars well and store the crate in the materials room (cool, dark and dry)
- Before the next storage, look through the crate and check the shelf life / condition

Now you just need to add the spices and replace the empty jars
