Back to the future?!

A children's week on the theme of "time travel"

Project description

Every morning after the greeting, the time machine took off and crossed space and time at the speed of light. This entry was a common thread through the week.

So each day was landed in a different environment. After leaving the time machine, the children were tuned into the new time with a short theater. Each of the cancelled days was designed as a unit program.

Each time after lunch was healthy together and listened to the devotion.

Throughout the week, the school facility of the political community was available for the children's week.
