### Back to the future?!

A children's week on the theme of "time travel"

## **Project description**

Every morning after the greeting, the time machine took off and crossed space and time at the speed of light. This entry was a common thread through the week.

So each day was landed in a different environment. After leaving the time machine, the children were tuned into the new time with a short theater. Each of the cancelled days was designed as a unit program.

Each time after lunch was healthy together and listened to the devotion.

Throughout the week, the school facility of the political community was available for the children's week.
