81. Team course with Blache - Does everyone listen to the right person?

The rider is carried on the banner through a course, the direction is given by his plan, because his wheels are blind!

He gives commands but it has interfering "callers" in between and his wheels must listen only to him.

Material

- Military sheet
- Stöckli
- Mug
- Deterrent tape
- Task sheet / story

Sample:

You have been on holiday. The father (driver) has to go home because he has work to do. The wife (passenger) and children want to stay.

The driver sits on the canopy and gives instructions to the wheels.

The wheels are blind and carrying the canvas (car).

The woman walks alongside and gives wrong instructions.

The children wake up after the second turn and scream around:

Z. E.g. "I want to eat something!", "I have to go to the toilet".

The driver has the map with the obstacles (speed etc...)

The wheels react to the turns with lean (e.g. left side lifts the sheet).

- Plan

Pattern:

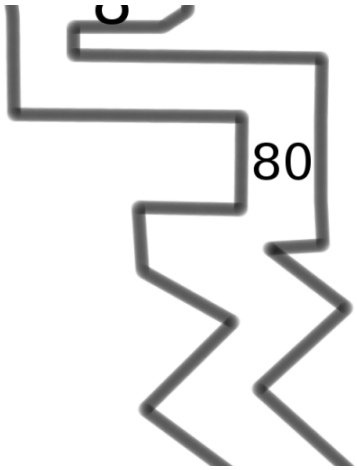

80 = race

30 = go very slowly

= bump (All wheels pull on the ends, driver spikes into the air)

8 = Traffic light, wait 5 seconds

Plan sample
