

## Post race on the playground

Perfect if you don't want to organize too much, but still want to have fun.

### Material

Must be adapted depending on the games or posts.

For example, for a sack race you need jute sacks or for an obstacle course ropes, buckets, etc.

### Explanation

A normal children's playground can also be made into an exciting obstacle course or whatever. For example, stretch ropes over a bridge in a triangle as shown in the picture above or even ordinary passage tubes can be made into a perfect obstacle course

If such a post run or competition wants to be made even more exciting, it can also be made with prizes, in that the participants receive a point for each successfully mastered task, or in the case of group tasks, both receive a point and at the end the winner receives a small prize.

### Groups

The post run can also be done with groups, depending on the tasks/posts, e.g. when leading "blind", two people are needed.

If groups, then in two groups. The three would always have to sit out one person.

### Posts

Various post suggestions I show here, but these will need to be adapted depending on the situation and space, etc.

- Being led blindly through a course with obstacles with a basin full of water in your hand. Go for time. Group against group.
- Transport water with a sponge from one pool to another over obstacles such as a small climbing wall. Goes for time or directly two participants against each other.
- Rope pulling. Group against group.
- Recognize natural objects (branches, leaves, etc.) barefoot. Group members against each other.
