Tennis ball throwing game

Two players face each other and play the ball to each other. The ball must be hit about in the middle of the fabric, when the ball comes the two timbers are pulled apart and the ball flies back.

Material

- Tennis ball
- 2x throwing device (building instructions below)

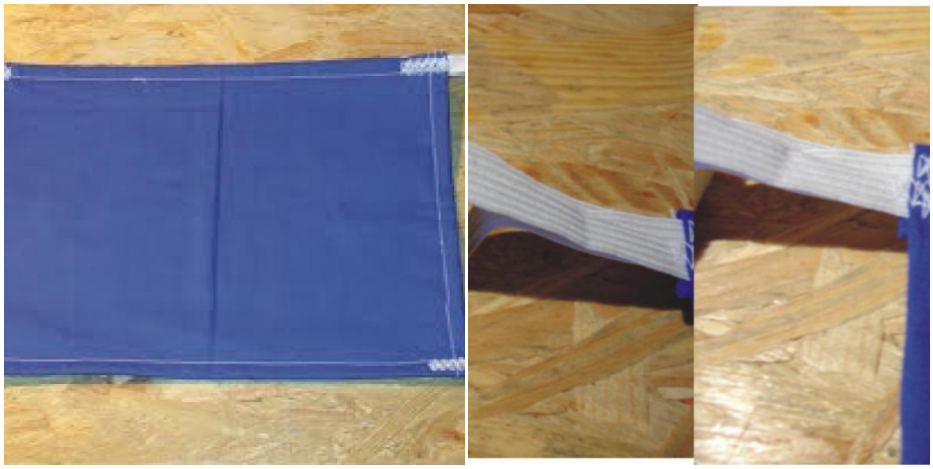

Material for building a throwing device

- 2 round logs (220x3mm)
- Fabric cloth (250x140mm)
- Trousers elastic (approx. 50cm)
- Drill
- Sewing machine or thread with needle

Building instructions

1. Holes are drilled in the top and bottom of the two round timbers.
2. Then put a trouser elastic through the hole and sew it to the fabric.
3. A cloth should also be attached to the holes so that the elastic does not tear.
4. The fabric cloth must of course be sewn around.
