- Overlook project well and select based on available funds
- Write accurate, detailed script, rehearse
- Estimate costs and clarify financial issues
- Take well-planned and organized shots
- Gather material, edit

- Etc.

To note

- At least one person should be well acquainted with the material
- Clear if there is a possibility to cut
- Needs stamina! Shooting grateful, rework rather sluggish and time consuming
- Take pictures outdoors if possible
- Work with tripod
- Use zoom sparingly! Better interface and get closer
- Record sound, if necessary with special microphones
