

Running games in knee deep water

Various running games in knee-deep water.

Run after

When running after, the third parties must be beaten off. Here the pursued hare must save itself diving by the legs of a player.

Black man with diving

All dive and may only be knocked off above water.

Day and Night

The players face each other at 2 paces in the water. The referee throws 1 black and white board between them. The person who sees the day on his side must run away, the other person must follow. (cf. [Running - "Day and Night"](#))

Hetzball, Neckball, Schnurball

Everyone throws from the place where he is. String about 70 cm above the water. Under the string = minus point.

Numbered running

Call on 2 numbered players to get the ball into the middle.
