TLT 1.0 trailblazer training

TLT 1.0 trailblazer training

The first Hungarian Teamleader Training in mid-March was very blessed. Our hearts are full of gratitude for the community-strengthening and inspiring days, where we also experienced the power of prayer. The feedback from the participants was absolutely positive, which encourages us that we are on the right track. There are several lessons from our first attempt that need to be thoroughly evaluated - perhaps the first is that we really need a time frame of 1 week.

Another experience came on the penultimate project day. In groups, participants were tasked with developing concrete projects based on what they had learned - and to our great delight, several of them started on the road to implementation! We must continue in the direction we have started - it has become clear to us. Thank you for your international help, advice and prayer support, it is an incredible privilege to build the Kingdom of our great God together.

Attila Takács

My No.1 experience of the training: the presence of the Spirit was felt during the long weekend! :) One of the concrete projects was the Trail Leader (TLT) 2.0, where we gathered ideas for future planning. We are excited to continue!

Krisztina Kósik
