

Tablets of the law from salt dough

From salt dough you can make great tablets of the law. First, they look very real and second, Moses can break them in his anger. (Unfortunately, ours were broken before a photo was taken...)

Later, Moses had to write down the laws himself. You might as well make some as vertüferli with the Jungschärlern.

Basic Recipe Salt Dough

1 cup salt

2 cups flour

1 cup water

Knead ingredients - Shape - Let dry - Bake at 140° C
