

Hay jumpers (Näpperlen)

Spike your haymaker to the finish line

Age from 8 years

Number of players 8-10

Game location Meadow

Material 10cm long, round wooden blocks, beveled at the front, with a cut Bödli, one hazel stick per player

The "Näpperli" lie on the starting line. You hit the beveled part with the hazel stick so that the "Näpperli" bounces forward like a hay jumper. Skillful games also try to give the "Näpperli" another blow during its flight through the air so that it flies even further.

The goal is to reach the finish line 30 meters away in as few jumps as possible. The winner is the one who needs the least number of jumps
