## Labyrinth

The labyrinth is a kind of post run with 75 posts. The correct solution of a post always results in the next post to be approached. If you choose the wrong solution, you will end up on a wrong path, from which you will sooner or later return to the correct path.

## The rules of the game

The labyrinth is a kind of post run with 75 posts. The correct solution of a post always results in the next post to be approached. If you choose the wrong solution, you will end up on a wrong path, from which you will sooner or later return to the correct path.

The game is played in groups of 2 or 3 . Each group rolls the dice for its starting post (1 to 6 ). The answer to a question leads the group to the next post.

Possible evaluation: First and foremost, the number of posts run to the finish line counts. In case of a tie, the running time decides. However, the post race can also be played without evaluation.

The post sheets are hung up according to the scheme (see below).
Outdoor game
(forest):
Correct answer = forward
wrong answer = backwards
Game in or The post sheets are hung up in wild confusion and must be searched for each
around the house: time. The last post (no. 75) should be hung up only when the first group is close to This is a real "all-purpose" game! Can be played in any weather in any place with some space with any number of participants. Can be easily adapted to different age levels with other questions (or even tasks).

## Questions for the item sheets

(Correct answers are underlined)
IMPORTANT: If other questions are used, make sure that the correct number of the next item is given with the correct answer! Otherwise the chaos is perfect.

## 1. Which coastline is longer, Africa's or Europe's?

a) Africa 3737
b) Europe $\quad \underline{55}$
c) Both equal 27
2. In which lake is St. Peter's Island located?
a) Lake Neuchâtel 36
b) Lake Murten 37
c) Lake Biel $\underline{27}$
3. What is the name of the person depicted on the Swiss 20 note?
a) Sophie Tauber-Arp 14
b) Leonhard Euler 27
c) Arthur Honegger 36
4. How many percent of the earth's surface is covered with water?
a) $70.7 \% 10$
b) $10.2 \% 62$
c) $95.6 \% 55$
