Guess the Jobs

This game of tag requires not only creativity but also speed.

Material

- none

How to Play

- Two players are designated as "catchers."
- The remaining players are professionals.
- They secretly agree on a profession.
- They then line up about 2 meters in front of the catchers and act out the profession they agreed on using pantomime.
- As soon as the catchers recognize the profession and call it out loud, the professionals try to reach safety behind the opposite boundary of the playing field.
- Anyone caught in the process immediately becomes a catcher themselves and tries to stop the fleeing professionals.
- The players who managed to reach safety come up with a new profession and line up again in front of the now-larger group of catchers.
- The game continues until only one player remains. That player is the winner.
