Soccer quiz

There are many ways in which a quiz can be organized: *1,2 or 3*, *Who wants to be a millionaire*, *The big prize*, etc. You can find another, slightly different quiz method described here.

Lining up the players in a group

Torwart

Abwehr Abwehr Abwe

Mittelfeld Mittelfeld

Sturm Sturm Sturm

Implementation

- 2 teams line up or sit opposite each other in the formation shown above.
- The game leader asks the question to the 1st team, starting in the forward line.
- If the question cannot be answered by the forwards, the question goes to the midfield, then to the defense and finally to the goalkeeper.
- If even the goalkeeper cannot answer the question, a goal is scored.
- If the question is answered, the ball is deemed to have been cleared.
- A helper of the game leader can possibly mark the position of the ball with a ball by standing next to the corresponding row.
- Questions that are not answered can be passed on to the other group.
- In the end, the team that has conceded the most goals loses.
