# **Bretzel (Knoten)**

## **Instructions**

Place the rope around the tree or pole.

Then cross the rope at the top.

Then pull under the rope and between the two ropes. (= 1st loop)

Continue to pass the rope under the taut rope.

Finally, pass the rope through the hole created at the top. (= 2nd loop)

The pretzel is now ready. So that the knot really holds, often another Bretzel is made and finished at the end with a normal knot ("Grossmüeti").
