

## Tin Foil Rockets

### **Things You Will Need**

- Scissors
- Matches
- A candle
- Tin foil
- A wooden skewer

**Cut the Head Off the Match**

**Place the Match and Match Head on Foil As Shown**

**Fold the End of the Foil Round Tightly Round the Match**

**Roll The Foil Round the Match**

**Flatten the End of the Foil Tube**

**Fold the Flattened End Back Over the Match**

**Remove the Match From the Rocket**

**Insert the Sharp End of the Skewer**

**Light Your Candle**

## **Firing Your Rocket**

Hold the end of the rocket (containing the match head) over the flame of the candle. Point the rocket at an angle.

**Make sure no-one is stood in the direction the rocket will fire - these little rockets can fly several meters.**

**Launch!**
