

Steve der Papagei

Material

- 1x round wood (20x100mm)
- 1x black clay paper
- div. colored paper
- Felt tip pen (for the face)
- Scissors or cutter
- Drill or drill

Building instructions

Transfer the body onto black paper and cut it out.

||

Transfer the rest of the body parts onto colored 120 gram paper or print them out and glue them onto the body.

||

Finally, paint the face and cut a hole for the round wood (20x100mm) into the body and glue the round wood.

||

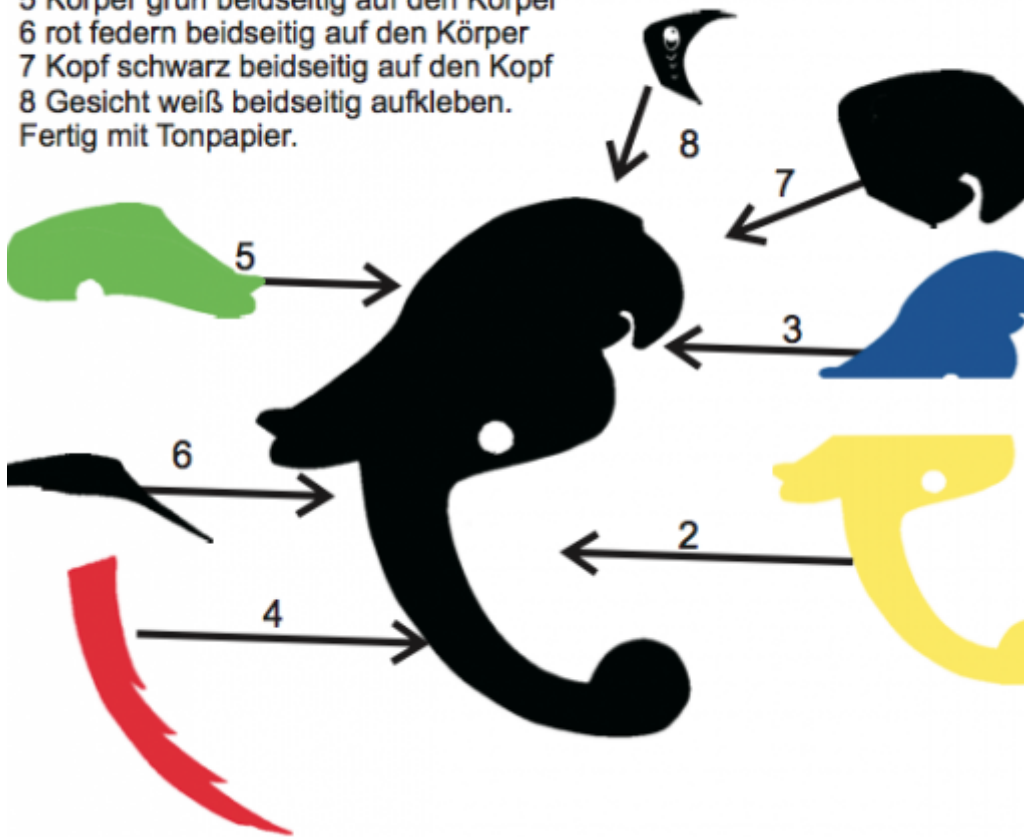

Drill holes in the round wood. Now thread the threads through the holes in the roundwood and knot them.

||

Note: If the parrot is to be made for several children, it is best to make a template for each body part.

Images

- 1 Papagei schwarz ganz
 - 2 Schwanz gelb beidseitig unten auf den Papagei kleben
