**Important notes:**

- For borderline age groups, ID cards are required (there is a lot of cheating and complaining)
- For whole tournament, good, skilled referees are needed
- For good tournament, good floorball sticks and goals are essential
- As the years go by, the amount of time spent on preparations decreases
- The break must be organized and well thought out that it "arrives" and works well with a large, very critical youth audience (avoid long waiting times, attractive program!)
- Send Jungschar program to participants after the tournament
- After the tournament offer attractive Jungschar afternoon (better advertising effect), ideally a week later

**Application:**

Large-scale event with long-term advertising effect
