

Top Projekte 95

"Projektmethode ist die Methode der Methoden", findet M. Golpelwar, ein Fachmann in der Jugendarbeit.

Die Top Projekte wurden in der Praxis erprobt und sind in den entsprechenden Teenager-Clubs, Teenie-Gruppen der Jungschar etc. gut angekommen.

General information about the project method

For leaders in children's and youth work it is certainly one of the most beautiful tasks to promote and use the gifts that God as Creator has given to every human being. It is truly (Lord)ly to see how the Lord has placed them in individual human lives and very unfortunate how much lies fallow that could actually be used for the good of all.

Project Features:

1. ladder-structured projects
2. self-structured projects
3. self-interest or third-party interest projects

Individual articles

Basic Project Method

Top Project 1:

Photographing, etc.

Top Project 1:

Wood, stone, metal, toepfern
